

## MEDICAL REVITALIZATION, INC

# Baxter FloGuard 6201

### Features:

- Dual channel infusion pump
- Downstream occlusion detection
- Air-in-line detection
- Computer interface allows for remote operation and monitoring

### Specifications:

- Battery: Approx 6 hours, 12V
- AC Power Input: 110/120V, 60Hz
- Leakage Current: >50 microamps
- Dimensions: 13"W x 11.40"H x 5.10"D
- VTBI Range: 1.0-99.9 mL in 0.1 mL increments or 1-9999 mL for both primary and secondary of each pump.
