

MEDICAL REVITALIZATION, INC

Alaris MedSystem 3 2865

Features

- Multi-channel infusion pump
- Six selectable device types: general purpose, neonatal, controller pressure, O.R., general purpose 2, and O.R. 2
- Drug dose calculator

Specifications

- Dimensions: 7.87"H x 6"W x 2.10"D
- Weight: Approx 5.10lbs
- Air-in-Line (Default):
- Occlusion Pressure: 15 psi except for Controller Pressure device type which is 3 ft., H2O
- Operating Temperature: 50-104° F. (10-40° C.)
- Transport/Storage Temperature: -4 to +131° Fahrenheit (-20 to + 55°C) (<95°F or 35°C for optimum battery life)
- Rate Change: 0.1 - 999 milliliter per hour (each channel)
- Volume Range: 0.1 - 9999 milliliter (each channel)
- KVO Rate Range: 0.1 - 20.0 milliliter per hour
- AC Power Input: 90VAC to 132VAC, 47Hz to 63Hz
